Proceedings of INTERNATIONAL FORUM ON SHIPPING, PORTS AND AIRPORTS (IFSPA 2008)

Trade-Based Global Supply Chain and Transport Logistics Hubs: Trends and Future Development
# Table of Contents

Welcome to IFSPA 2008 ......................................................... I

Co-organizer and Sponsors ....................................................... II

IFSPA 2008 Organizing Committee ........................................ III

Table of Contents ............................................................. IV

Effects of Competition and Policy Changes on Chinese Airport Productivity: An Empirical Investigation
Andrew Yuen Chi-Lok and Anming Zhang ...................................... 1

Selection Criteria of air hub in Pearl River Delta (PRD) Region: From shippers’ perspective
Simon S.M. Yuen .................................................................... 17

Air-Crew Scheduling In Transportation Problems: An Experiment Way to Apply Meta-heuristics Algorithms
Ngoc-Hien Do, Soo-Won Joe, Quynh-Lam Ngoc Le and Ki-Chan Nam .......... 28

Reducing Aircraft Emissions on the Ground
Henry S L Fan ........................................................................ 38

The Impact of E-services in a State-owned Airline
Kostas Malagas and Nikitas Nikitakos ........................................... 48

Optimising Investment in Regulated Airports
Achim Czerny and Peter Forsyth .................................................. 60

Reform and Opening up: Way to the Sustainable and Harmonious Development of Air Transport in China
Liu Wei Min and Maria K R Luk .................................................. 71

Air policies in the 21st century: China, the EU and the Establishment of an Open Aviation Area
Pablo Mendes de Leon ................................................................ 97

China’s economic rise and its implications for logistics: the Australian Case
Jose Tongzona, Hong-Oanh (Owen) Nguyenb .................................. 110

Evaluating key logistics service capabilities for Taiwanese liner shipping firms
Ching-Chiao Yang, Peter B. Marlow and Chin-Shan Lu ....................... 122

A Study on Commercialization of R&D Projects in Port and Logistics Industry Case of Non-Stop Automated Gate System
Yavuz Keceli, Hyung Rim Choi, Nam Kyu Park, Su Jin Yun, Joong Kim and Hee Yun Kim ............................................................ 137

Study on Evaluation of Regional Logistics System
Wei Zhen-lin and Liu Yan ......................................................... 147
Maintaining Efficiency with a Multi-level Warehouse Design  
Nelson Lee  

Research on Forecast Method For Logistics Node’s Volume of Freight Handled in the Port Hinterland  
Qingfeng Zhang, Xiaodong Zhang and Boling Han  

Evaluation for Cargo Tracking Systems in Railroad Transportation  
N.K.Park, J.Y.Kim and W.Y.Choi  

Competitiveness of Indian Dry Ports and the Impacts of Government Policies: The Dualistic Approach of Policy-makers  
Koi Yu Adolf Ng and Girish C. Gujar  

An Appraisal of Motivation Principles in Shipping Companies  
Kyriaki Mitroussi and Chiao-Jia Chang  

World Maritime Cities: From Which Cities do Maritime Decision-makers Operate?  
Ann Verhetsel and Steve Sel  

The Added-Values and Motivations of Embarking on Postgraduate Maritime Studies  
Jarrod Ho, Koi Yu Adolf Ng and Anita Koo  

A Study on Vietnamese Container Ports: Analysis, Evaluations, and Suggestions  
Quynh-Lam Ngoc Le, Ngoc-Hien Do, Tae-Won Kim and Ki-Chan Nam  

Is Container Liner Shipping an Oligopoly?  
Christa Sys  

Operational rules of container terminals: An empirical study of mega operators in Hong Kong  
Tao Chen  

Perceptions and Assessment of Maritime Security Management – the Perspectives of Liner Shipping Companies  
Shiou-Yu Chen and Chih-Ching Chang  

The Optimal Fleet Capacity of a Container Shipping Line  
Wei-Ming Wu  

The Law and Economics of Ship-Source Oil Pollution Damage  
Dr. Jingjing Xu  

Effectiveness of an Empty Container Repositioning Policy with Flexible Destination Ports  
Jing-Xin Dong and Dong-Ping Song  

Factors Driving Shipping Companies to IT Outsourcing  
Vassilios Pirkatis and Nikitas Nikitakos
Assessing the Natural and Socio-Economic Environments caused by Routine Maritime Activities: a New Perspective and its Applications to North Europe
Su Song and Koi Yu Adolf Ng

The Relation between Port Competition and Hinterland Connections The Case of the ‘Iron Rhine’ and the ‘Betuweroute’
Hilde Meersman, Tom Pauwels, Eddy Van de Voorde and Thierry Vanelslander

Evaluating Container Developing Strategies for the Port of Kaohsiung: An Exploratory Analysis
Chin-Shan Lu, Kuo-chung Shang and Min-Guei Sung

Analyze the Risks of Biological Invasion: An agent based simulation model for introducing non-native oysters in Chesapeake Bay, USA
Meifeng Luo and James J. Opaluch

Ship Traffic in Container Port: Modelling Methodology and Performance Evaluation
Branislav Dragovic, Nam Kyu Park, Dong-Keun Ryoo and Romeo Mestrovic

Port and Maritime Security: Is there a Distinctive European Approach?
Athanasios A. Pallis and George K. Vaggelas

Valuing Costs and Benefits of Shipbuilder’s Sales’ Incentives
Helen Bendall

Creating Value-driven Port Logistics in Free Trade Zones
Cheng-Min Feng and Hui-Chuan Hsieh

A Comparative Assessment of Service Quality Perspectives and Satisfaction in Ports: Evidence from Nigeria.
Callistus Ibe, Chinonye Ugboma and Ogochukwu Ugboma

Dynamic Interrelationships between Sea Freight and Shipbuilding Markets
Jane Jing Xu, Tsz Leung Yip, and Liming Liu

Models and Algorithms for Multi-crane Oriented Scheduling Method in Container Terminals
Qingcheng Zeng, Zhongzhen Yang and Luyuan Lai

Analysis of Dynamic Correlation between Dry Bulk Shipping Freight Indices
Lu Jing and XiaoXing Gong

Risk Evaluation on Extreme Volatilities of Dry Bulk Ocean Freight Market
Wang Jianhua, Lu Jing, Wei Fang and Fu Mingming

Are Shipping Companies Going Green?
Heather Leggate McLaughlin and Viara Bojkova
