**Abstract:**

Many factories in developing countries have serious Environmental, Health and Safety (EHS) issues. Due to inconsistent law enforcement, limited progress has been made. What can be done? This is an open research topic that operations management and supply chain researchers should explore. I plan to share some of my preliminary studies in this presentation.

**Bio:**

Dr. Tang is University Distinguished Professor and the holder of the Edward W. Carter Chair in Business Administration at the [UCLA Anderson School](#). He is a former Dean of NUS Business School at the National University of Singapore and a former Senior Associate Dean of the UCLA Anderson School.
